REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The amendment filed on 06/22/2006 has been considered in view of the specification and the drawings of this application with respect to the references of the record. Claims 1, 10, and 11 have been reconsidered in view of applicant's response. The references of the record, either taken alone or in combination, fail to teach or suggest "to reserve an output of the current sensor, as an offset quantity when the non-discharge/charge current state is detected" and "a correcting section to correct a sensed value of the discharge/charge current sensed by the current sensor, in accordance with the offset quantity reserved by the offset detecting section" as recited in the claims. The references of the record fail to teach or suggest the means plus function as recited in claim 10, and the "reserving, as an offset quantity, a sensed value of a discharge/charge current when the non-discharge/charge-current state is present" as recited in claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
